

# The EU is not ready for Postal Liberalisation!

The Commission didn't meet the preconditions  
for the postal liberalisation in Europe

## We want:

A study on the social  
consequences of the full  
market opening

Social regulation which  
ensures good working  
conditions

Guidelines on how to  
finance universal services

A guarantee for  
sustainable postal  
services in Europe

Recommendations on how  
to compete on quality and  
innovation rather than on  
costs
