### **In the memory of Alexandros Grigoropoulos**

On the occasion of the sad second anniversary of the murder of the Greek 15-year-old student, Alexandros Grigoropoulos, by the Greek Police, in 6 December 2008, the European Left expresses its unconditional support to the youth movements throughout Europe that fight for a decent life, education and employment, against precarity, privatizations and state repression.

The European Left salutes this fighting youth and wishes to be a useful political and activist tool for the realization of their aspirations, which we fully share in our project for another Europe.

The Delegates of the 3rd EL Congress  
Paris, 4/12/2010
