

Motion on Sinti and Roma

Page 1 of 1

The delegates to the 3rd congress of the EL in Paris oppose the increasing marginalisation and persecution of the Sinti and Roma in Europe.

In doing so, the EL argues against the activities of the extreme right, such as in Hungary, where the persecution of the Roma is a core part of the extreme right's perfidious political objectives.

On the other hand, the EL strongly condemns the racist deportation policies of the conservative governments of France and Italy.

The delegates to the 3rd congress of the EL demand that the European Parliament adopt a unified European framework strategy, particularly for the Roma people.

Similarly, the EL appeals to the member states of the European Union to consistently implement the anti-discrimination Directive (2000/43/EC).
