

Resolution from The 5th European Left Trade Union Network Conference

Support to unionist Konstantina Kouneva

We the left trade unionists in and close to ELP that we have met for our 5th conference meeting in Copenhagen we declare our solidarity to the struggle of Konstantina Kouneva and her fight for decent labor conditions as well as her struggle against terrorism of employers.

We declare that we will stand united against any effort of attack to our labor and social rights.

The murderous attack against Kouneva's life in order to stop her activity was also an attack against all the workers.

We demand from the right wing government to take any action needed so the responsible of this attack to be found. Also we demand that because of her severe and heavy injure the Greek state to pay for her health care and to insure that will be instantly pensioned.

We support the struggle Konstantina Kouneva as a woman, immigrant and unionist and we strongly oppose to any kind of action who tries to illegalize the freedom of unionist's activity.

Copenhagen 5 April 2009
