20.00

Dinner

22.00

Super evening

SUNDAY 14 JULY 2019

Morning – Departures from Fiuggi to Rome by bus – Stop at Termini – Drop the luggage
City tour of Rome – free departure.

The Summer University of the Party of the European Left (EL) will be one of the first opportunities for collective discussion since the European elections. This will be a discussion that each participant will have developed in his or her own country and organisation, but which can now be brought together for a richer analysis and broader discussion in Fiuggi.

The context is a very wide one and so the Summer University will be tasked with:

A. Taking stock of the crisis of globalisation, the new challenges and new opportunities ahead. The framework of the University is to address both the characteristics of the crisis of globalization and the features of the new movements that are currently developing as its powerful opponents. We will consider the feminist and environmental movements which through their depth of critical thinking and action present the greatest possibility of changing the current political trajectory.

B. Analysing the crisis of democracy that has occurred over the last thirty years and the specific characteristics of the growth of the fascist right today.

C. Explaining and deepening our thinking about a new humanism, with a possible dialogue between Marxists and believers, and a discussion on the perspectives of the European left, starting with strengthening the construction of the European Forum.
